**DR. B. BRANDRETH'S Vegetable Pills.**

The Universal Medicine of Life!

THESE are faculties both bodily and intellectual within us, with which certain herbs have affinity, and over which they have power.

**DR. B. BRANDRETH'S SANDS' SARSAPARILLA.**

**CONTAGIOUS DISEASES AND CHANGES OF TEMPERAMENT.**—Water must be adapted to the nature of the fish, or there will be no propagation of the species. The soil must be adapted to the seed, or there will be no increase. The climate must have those matters in it which will unite and keep alive epidemics or contagious poisons, or they will be extinguished, as a lamp that is supplied with oil. So it is likewise with Human Frame; it cannot be materially affected by epidemics or contagious maladies, unless there be those matters floating in the circulation which offer the appropriate soil. By purifying our bodies with BRANDRETH PILLS, which have affinity with those impurities upon which contagion feeds, we may always feel secure, whatever disease may rage around us. True, we may have it, but it will soon be over: our sickness will be the affair of a day or two, while those who have been too wise to use this simple and excellent remedy, neither die, or have weeks, perhaps months of sickness.

Sudden changes from every hot to chilly weather, are unfavorable to health; and it is a fact universally admitted, that heat and moisture are powerful agents in producing disease, and that constant dry and constant wet weather are both favorable to its generation; it does not signify what we call it; it may be ague; it may be bilious fever; it may be yellow fever; it may be dysentery; it may be rheumatism; it may be bronchitis; it may be cholera; it may be constipation of the bowels; it may be inflammation of the bowels; it may be inflammation of the stomach; it may be nervous affections; but still it is a disease curable by the Brandreth Pills, because they remove all impurities from the body, all that can in any manner feed the further progress of the malady, no matter how called. Thus these pills are not the only medicine that need or ought to be used. At the present time it is every man's duty who wishes to secure his health, to use them; it is the duty of every one who knows any thing of their health restoring powers, to make it known in his immediate circle. For there are some alarming signs which tell the approach of disease. The sudden changes of temperament are more to be feared and guarded against than any contagious malady.

The influenza has left many in such a state of weakness that there is in them a great susceptibility to be affected by those changes of the atmosphere and contagious maladies; but the timely use of Brandreth's Pills.

It is now even now the susceptibility can be in a great measure removed, in power given to the system to resist those morbid poisons, and the sudden changes in the weather with which it may be brought in contact during the next fifty days. Nature has formed the bowels for the evacuation of all unhealthy humors, and if man would but use common sense, he would take care they performed this office faithfully. If the bowels are out of order, if too slow or too fast, a few doses of Doctor Brandreth's Pills put them in order. Ask the man who was dying from constipated bowels what cured him, he tells you Brandreth's Pills. Ask him who had the dysentery for six months, and every remedy had failed; he will also tell you the Brandreth Pills cured him in a week. So with other diseases. Twelve Brandreth Pills rubbed down in a pint of molasses, cured a little boy of an ulcer of the face, which was rapidly spreading to his eyes, and which a dozen doctors had tried to cure, but could not; the poor parents would have given half they were worth to have it cured, but everything they tried did no good, until they gave it a teaspoonful of molasses every day, in a half a pint of which they rubbed twelve Brandreth Pills; before the whole of the molasses was taken the ulcer was cured. And yet some foolish people call Brandreth's a quack medicine. It would be well if there were a few more such quack medicines. Will all your pretended Sarsaparilla compounds cure like the Brandreth Pills? Can they send you to persons cured, as Dr. Brandreth can? Can they point out to you the people who had been helpless for years from Epilepsy and St. Vitus's dance, who have been cured by their remedies? If they cannot, Dr. Brandreth can! Can they point out to you a person who for twenty years who had never had a stool without having used medicine, or mechanical means, and whom the Brandreth Pills cured in a month, and gave him as healthy evocations as he had when he was a child? If they cannot, Dr. Brandreth can.

**THE BRANDRETH PILLS** not only do cure all curable diseases, but it can be demonstrated, that by their timely use, they must infallibly cure. In a very short time, Dr. Brandreth will bring before the public a concentration of the virtues of the Brandreth Pills, both in the form of pills and in a fluid form, and then he will explain the reason of the cures that must necessarily be the result of using the BRANDRETH REMEDIES, whether they be internal or external. I have just received the case of a medical gentleman, who resides at Sherbrook, Canada, who for twenty years was sorely afflicted with a disease, which came out in blotches and scabs all over his body. This gentleman so far forgot his prejudices, which too often curbs his profession, as to apply personally to Dr. Brandreth and his cure proved a happy one; within six months he was entirely cured of his miserable and tormenting disease by the use of the Brandreth pills.

The use of the Brandreth Pills can in no case do injury, because they are made of those herbs and roots which experience has fully proved always harmonize with the human body. The omission of purging with them in case of sickness, is often the cause of a long attack, often ending only by a cessation of life.

How important it is that this course should be pursued—it will not only be the surest means of restoring, but it will in a great measure prevent the recurrence of constitutional maladies—it will surely weaken the malignity of the attacks and in time secure robust health.

As with all valuable medicines, the Brandreth Pills have been shamefully counterfeited, but I succeeded in having executed THREE LABELS (and which are appended to each box) of this intrinsic workmanship as to bid defiance to all future imitations. Now, therefore, a new evil presents itself. My advertisements are taken verbatim, and used by all the medicine mongers of the day, who merely take my name out and insert the name of their medicine in the place of Brandreth Pills occupied in the advertisement thus stolen from me. Time will prove how these speculative gentlemen sustain themselves.

My friends rest satisfied that I shall, so long as my life and energies are permitted me by an overruling providence, attend personally to the preparation of the Brandreth pills, and that the same properties which have thus far rendered them so popular, will be still continued unimpaired.

**B. BRANDRETH, M. D.**

The Brandreth Pills are sold by one agent in every place of importance throughout the world each agent having a certificate of the agency from Dr. Brandreth, having fax similes of labels on the Brandreth pill boxes engraved thereon.

Brandreth's Pills are sold at 25 cents a box; with full directions, at the Principal Office, 241 Broadway, 274 Bowery, and 189 1-2 Hudson street, New York.

Also: Dr. Brandreth's External Remedy, or LINIMENT, which by its extraordinary powers abstracts pain or soreness, thus sprains, stiff sinews, white swellings, rheumatic pains, stiffness of the joints, tumours, unnatural hardness, stiff neck, sore throat, cramp, contraction of the muscles, scrofulous enlargements, tender feet and every description of injury affecting the exterior of the human frame, are cured or greatly relieved, by his never-to-be sufficiently extolled remedy.

FOR the cure of coughs, colds, catarrh, asthma, soreness of the chest, pain in the side and breast, raising of blood, Liver Complaints, Bronchitis, and all those affections of the throat and Lungs, which are a source of so much suffering, and, unattended, so often terminate in Consumption—this remedy is highly and justly distinguished. It is purely vegetable, mild and gentle in its effects upon the system, and can be taken in the most delicate cases, with safety as well as utility. For a common Cold and cough, this is one of the very best remedies ever discovered.
